

Mapped results of a river modeled for a flood insurance study

Project Description

This **flood insurance study** is focused on the **Mettawee Watershed**. The following reaches are being studied in detail as part of this study. This requires detailed **field surveys** of **structures** crossing the rivers and of the **river bed** in selected areas. The reaches are described below.

- **Castleton River** – Fairhaven and Castleton, VT
- **Mettawee River** – Pawlet, VT
- **Wells Branch** – Pawlet and Wells, VT
